Flowering Evergreen Aristocrats

APR 2 1931

Pachysandra: Living Carpet

A dense mat six inches high, the Pachysandra is indispensable where shade is too heavy to grow a good lawn. Plant close together for best results. It requires absolutely no attention.

RHODODENDRONS for their beautiful foliage alone would be noteworthy evergreens. When added to this are the magnificent rose-like blossoms in a wide variety of color, no place can be complete without them. Since 1878 this company has specialized in Rhododendrons.

Hardy Hybrid Varieties

The listed varieties are the most satisfactory. All plants below are shapely and budded to bloom this spring.

Amphion—clear pink with white eye.
Catawbiense album—pure white.
Catawbiense grandiflorum—rosy lilac.
Mrs. C. S. Sargent—deep rose-red.
Roscum elegans—clear rose. A compact grower.
Everestianum—rosy lilac. Compact.
President Lincoln—lilac pink with brown eye.

HARDY EVERGREEN AZALEAS are unique and unusual. The two varieties listed here are the only ones we know thoroughly hardy in the North.

Hinodigiri in Westchester County and the new Hybrids as far as Boston.

Thoroughly evergreen—superb color—dainty form.

Azalea Hinodigiri

A dwarf bush thickly covered with gorgeous red flowers in May.

These new hybrid Azaleas are available in named varieties and colors at \$5.00 to \$12.50 each, depending upon size.

Japanese Bloodleaf Maple

Evergreens in Select Varieties

A Group of Red Pine 10 to 12 feet high

The Red [Norway] Pine

This superb native ranks as perhaps the most popular evergreen for all purposes. Its name is taken from the town of Norway, Maine. A tall vigorous grower and subject to practically no insect pests. It makes a fine specimen; a thick dense screen for mass planting; and is an excellent variety for reforestation. We offer sizes for all three purposes.

And for quick screens we offer a special block in lots of 100 or more, 5 to 6 feet bushy trees at \$4.00 each. For carload shipment only. Massachusetts grown.

Upright Yew for Hedges

The **Japanese Yew** (*Taxus cuspidata*) is without question the hardiest race of Yews and the most satisfactory in the northern parts of this country. In its upright form, it makes a slow-growing dense tree. It likes shade. It makes an ideal evergreen hedge. We offer Upright Japanese Yew for hedges, 10 to 15 inches high, with balls of earth, in lots of 25 or more at \$150 per 100. And in larger sizes:

	(Each)	(10)	(100)

Bushy Little Trees You Can Grow into Specimens

IN a few years they will be valuable specimens. They need no more than ordinary garden care. We specialize in this size of nursery stock and have available a complete list of evergreens, evergreen shrubs, Deciduous trees and shrubs. Each "X" indicates a transplanting, which tends to produce bushy root systems and shapely tops. This stock is shipped packed in moss and without a ball of earth. Not less than fifty of each kind can be sold.

A Hedge of Cypress

Dense and green all winter—neat growing and easily sheared—Japanese Cypress (*Retinospora*) makes an ideal evergreen hedge. It is hardy and easily grown. We are offering a real bargain this spring in four varieties. All plants are transplanted and bushy furnished with ball of earth burlapped. No orders accepted for less than 25 of one kind.

Retinospora plumosa (green-plume).
Retinospora plumosa aurea (golden).
Retinospora pisifera (Pea-fruited).
Retinospora pisifera aurea (golden).

	(100)	(1000)
18 to 24 inches, B. & B.	\$80.00	\$750.00

This is a truly unusual opportunity. Compare these prices with others for the same quality.

Colorado Blue Spruce

The Blue Spruces

The **Colorado Spruce** (*Picea Pungens*) produces both green and blue trees from its seed. The best of the blue trees are selected and sold as Colorado Blue Spruce. We offer:

	(Each)	(10)	(100)
12 to 18 inches, B.&B.	\$4.00	\$35.00	\$300.00
18 to 24 inches	5.00	45.00	400.00

3 to 3½ feet	10.00	\$5.00	...
3½ to 4 feet	12.50	110.00	...
4 to 4½ feet	15.00

Koster's Blue Spruce is a grafted form of the above. It is a better and more enduring color.

12 to 18 inches, B.&B.	\$7.50	\$45.00	\$400.00
18 to 24 inches	12.00	110.00	1000.00
2 to 2½ feet	15.00	135.00	1250.00

Englemann's Blue Spruce is a rare variety which we offer only in small sizes. It is steel blue and a tall grower. 9 to 12 inches N, \$27.00 per 100. (Sold in lots of 50 or more only.)

Norway Spruce

We can furnish this by the million. The last four pages of our catalog are devoted to small sizes of this and other varieties at bargain prices. Write for quotations.

Mugho Dwarf Pine

The Mugho [Dwarf] Pine

This dense low-spreading evergreen is also subject to much variation, as its seed does not produce all true dwarf specimens. For this reason it is important to know with whom you deal. This year we offer an unusual bargain: 12 to 18 inches, B. & B., \$100 per 100. (Sold only in lots of 25 or more.)

	(Each)	(10)	(100)
15 to 18 in., specimen.	\$3.00	\$27.50	\$180.00
18 to 24 in., specimen.	4.00	35.00	250.00

A full-grown Pfitzer Juniper

The Austrian [Black] Pine

This is the neatest and most compact of the Pine trees. A shapely and majestic lawn specimen, but hardy and a good grower. Much used for seashore planting. Will grow in sand. We offer a special screen size, 10 to 18 inches, transplanted, at \$12 per 100. (\$75 per 1000.)

	(Each)	(10)	(100)
2 to 3 feet, B. & B.	\$4.00	\$30.00	\$225.00
3 to 4 feet, B. & B.	6.00	50.00	475.00

Pfitzer's Juniper

A full grown specimen pictured on the left. In spring the foliage is silver gray. The hardiest and most satisfactory of dwarf evergreens. We offer an economy size, 10 to 12 inches twice transplanted at \$45 per 100 and can ship 25 or more at this rate.

	(Each)	(10)
1 to 1½ feet, B. & B.	\$2.50	\$22.50
1½ to 2 feet, B. & B.	3.50	30.00

Japanese Weeping Cherry

Among the unusual trees comes this exotic, with delicate pendant branches clothed with pink. We offer good heads on 6 foot stems at \$4.50 each. (\$40.00 for 10.) We can quote on many other varieties.

Purple Beech Specimen

Cutleaf Weeping Birch

The Birches [Betula]

To many people the Birch is typical of New England woods. In clumps here and there on shady lawns, or in groves with ferns underfoot, it has a dryad attraction hard to resist. Single specimens are also effective.

Cutleaf Weeping Birch (*B. pendula laciniata*)

The Purple Beech

Its smooth gray bark and unusual colored foliage make this a unique tree. Either as single specimens or in clumps, it is effective. Color-photo at the right. 18 to 24 inches, \$3.00 each. (\$25.00 per 10.)

Kelsey Nursery Service

Established 1878

50 Church St., New York City

Telephone, CORTlandt 7-2660

The Dogwood, Flowering Cherries, Crabs, Hawthorne and Mountain Ash are only at their best when seen in masses and if properly arranged such a mass planting can be a riot of color from earliest spring until July.

The Mountain Ash

Its showy red berries appear in early summer and remain until frost.

4 to 5 feet, \$1.00 each (\$8.00 per 10)
5 to 6 feet, \$1.50 each (\$12.00 per 10)
6 to 8 feet, \$2.00 each (\$100.00 per 100)

Paul's Scarlet Thorn

Paul's Scarlet Hawthorn

The New Chinese Elm (*Ulmus Pumila*)

From all over the country come extraordinary tales of this tree's rapid growth and phenomenal hardiness. So far as we can tell it really is the one ideal "Hurry-tree" for all parts of the country. It will not, however, make so rapid a growth in heavy or damp land, as it will on light, dry soil. It is important to cut back the side branches upon planting. New England grown from hardy North China seed.

	(Each)	(10)	(100)
